

SHANTHI NENAVATH

Hyderabad, Telangana, India | +91 6301145605 | shanthinenavath4@gmail.com | linkedin.com/in/shanthi-nenavath | github.com/shanthinenavath-arch

PROFESSIONAL SUMMARY

Full Stack & Mobile Application Developer proficient in building responsive web applications and cross-platform mobile solutions using Python, Django, React.js, React Native, Node.js, and SQL/MongoDB. Trained through NxtWave's CCBP 4.0 Advanced Full Stack Development Specialization with hands-on expertise in REST API architecture, centralized state management, database schema design, and JWT authentication. Electrical & Electronics Engineering graduate (2026, CGPA: 8.1/10) with strong technical problem-solving capabilities and commitment to continuous learning.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, HTML5, CSS3
- **Frontend & Mobile:** React.js, React Native, Expo, React Navigation, Zustand, Bootstrap
- **Backend & APIs:** Django, Node.js, Express.js, REST API Design & Integration, JWT Authentication
- **Databases:** PostgreSQL, MongoDB, MongoDB Atlas, SQL, SQLite, AsyncStorage
- **CS Fundamentals & Tools:** Data Structures & Algorithms, OOPs, Software Design, Git, GitHub, Postman, Render, Vercel

PROJECTS

ADOSX Reconciliation Platform | *React.js, Python, Django, REST APIs, PostgreSQL, Git* adosx-reconciliation.vercel.app

- Developed a full-stack reconciliation platform to compare, validate, and identify key data discrepancies across large datasets.
- Built responsive user interfaces for seamless data upload, interactive reconciliation results, filtering, and record tracking.
- Designed backend REST APIs for automated data processing, validation logic, result management, and PostgreSQL database operations.

ShopMatrix – Full-Stack E-Commerce Platform | *React.js, Node.js, Express.js, MongoDB, REST APIs, Render* shopmatrix-1.onrender.com

- Built a full-stack e-commerce application featuring product browsing, search functionality, category filtering, and cart management.
- Developed modular, reusable React components with client-side routing alongside secure Node.js/Express.js REST APIs.
- Designed MongoDB schemas for persistent product and transaction data storage; deployed full stack on Render.

FotoOwl – Image Gallery Mobile Application | *React Native, Expo, Zustand, React Navigation, AsyncStorage, REST APIs* foto-owl-chi.vercel.app

- Engineered a cross-platform mobile app featuring user authentication, profile setup, dynamic image search, and favorite items tracking.
- Integrated REST APIs with efficient pagination, pull-to-refresh, dynamic loading states, error handling, and image downloads via Expo Media Library.
- Utilized Zustand for global state management and AsyncStorage for persistent offline data storage on client devices.

EDUCATION

Bachelor of Technology (B.Tech) in Electrical and Electronics Engineering Graduation: August 2026
Mina Institute of Technology and Engineering, Hyderabad CGPA: 8.1/10

CERTIFICATIONS

CCBP 4.0 Intensive Program - Advanced Full Stack Development Specialization – NxtWave
Intensive specialization covering modern application architecture: React.js, Node.js, Python, SQL, REST APIs, and software engineering principles.
